Publications of Southern Forest Research Institute 1963-1976

1964

Vité, J. P., R. I. Gara, and H. D. von Scheller. 1964. Field observations on the response to attractants of bark beetles infesting southern pines. Contrib. Boyce Thompson Inst. 22: 461-470.

1965

Gara, R. I., J. P. Vité, and H. Cramer. 1965. Manipulation of *Dendroctonus frontalis* by use of a population aggregating pheromone. Contrib. Boyce Thompson Inst. 23: 55-66.

1966

Gara, R. I. 1966. What we have learned from new research on the southern pine beetle. Forest Farmer 25: 6-7, 18-19.

1967

Coster, J. E. 1967. Studies of the attack behavior of the southern pine beetle, *Dendroctonus frontalis* Zimmerman. Dept. of Entomol. Texas A&M University, College Station. M. F. Thesis.

Gara, R. I. 1967. Studies on the attack behavior of the southern pine beetle. I. The spreading and collapse of outbreaks. Contrib. Boyce Thompson Inst. 23: 349-354.

Gaumer, G. C. 1967. Effects of phloem temperature and moisture content on survival of southern pine beetle broods. School of Forestry, Stephen F. Austin College, M. F. Thesis.

Gaumer, G. C., and R. I. Gara. 1967. Effects of phloem temperature and moisture content on development of the southern pine beetle. Contrib. Boyce Thompson Inst. 23: 373-378.

Renwick, J. A. A. 1967. Identification of two oxygenated terpenes from the bark beetle *Dendroctonus frontalis* and *Dendroctonus brevicomis*. Contrib. Boyce Thompson Inst. 23 (10): 355-360.

1968

Coster, J. E., and R. I. Gara. 1968. Studies on the attack behavior of the southern pine beetle. II. Response to attractive host material. Contrib. Boyce Thompson Inst. 24: 69-75.

Gara, R. I., and J. E. Coster. 1968. Studies on the attack behavior of the southern pine beetle. III. Sequence of tree infestation within stands. Contrib. Boyce Thompson Inst. 24: 77-85.

Pitman, G. B., J. P. Vité, G. W. Kinzer, and A. F. Fentiman, Jr. 1968. Bark beetle attractants: *trans*-Verbenol isolated from *Dendroctonus*. Nature 218: 168-169.

Renwick, J. A. A., and J. P. Vité. 1968a. Isolation of the population aggregating pheromone of the southern pine beetle. Contrib. Boyce Thompson Inst. 24 (4): 65-68.

Renwick, J. A. A., and J. P. Vité. 1968b. Insect and host factors in the aggregation of the southern pine beetle. Contrib. Boyce Thompson Inst. 24: 61-63.

Vité, J. P., and R. G. Crozier. 1968. Studies on the attack behavior of the southern pine beetle. IV. Influence of host condition on aggregation pattern. Contrib. Boyce Thompson Inst. 24: 87-94.

Vité, J. P., and G. B. Pitman. 1968a. Concepts in research on Bark Beetle attraction and manipulation. Proc. Intern. Union Forest Res Organ., Munich, Germany: 683-701.

Vité, J. P., and G. B. Pitman. 1968b. Bark beetle aggregation: Effects of feeding on the release of pheromone in *Dendroctonus* and *Ips*. Nature 218:169-170.

Vité, J. P., and J. A. A. Renwick. 1968. Insect and host factors in the aggregation of the southern pine beetle. Contrib. Boyce Thompson Inst. 24: 61-63.

1969

Anonymous. 1969. Southern Forest Research Institute: Southern Pine Beetle Project. Boyce Thompson Institute, Jasper Texas. Unnumbered publication. 21 p.

Kinzer, G. W., A. F. Fentiman, Jr., T. F. Page, Jr., R. L. Foltz, J. P. Vité, and G. B. Pitman. 1969. Bark beetle attractants: Identification, synthesis, and field bioassay of a new compound isolated from *Dendroctonus*. Nature 221: 477-478.

Pitman, G. B., J. P. Vité, G. W. Kinzer, and A. F. Fentiman, Jr. 1969. Specificity of population aggregation pheromones in *Dendroctonus*. J. Insect Physiol. 15: 363-366.

Renwick, J. A. A., and J. P. Vité. 1969. Bark beetle attractants: Mechanism of colonization by *Dendroctonus frontalis*. Nature 224: 1222-1223.

1970

Coster, J. E. 1970. Production of aggregating pheromone in re-emerged parent females of the southern pine beetle. Ann. Entomol. Soc. Amer. 63 (4): 1186-1187.

Renwick, J. A. A. 1970. Chemical aspects of bark beetle aggregation. Contrib. Boyce Thompson Inst. 24 (13): 337-342.

Renwick, J. A. A. 1970. *Dendroctonus frontalis*: Die Steuerung des Befalls neuer Wirtsbaume durch Geruchsstoffe. Ph.D. dissertation. Inst. Forst. Zool. Gottingen Univ., Gotteingen, West Germany. 97 p.

Renwick, J. A. A., and J. P. Vité. 1970. Systems of chemical communication in *Dendroctonus*. Contrib. Boyce Thompson Inst. 24: 283-292.

Vité, J. P. and J. A. A. Renwick. 1970. Differential diagnosis and isolation of population attractants. Contrib. Boyce Thompson Inst. 24 (13): 323-328.

Vité, J. P., and D. L. Williamson. 1970. *Thanasimus dubius*: Prey perception. J. Insect Physiol. 16: 233-239.

1971

Vité, J. P., and J. A. A. Renwick. 1971a. Population aggregating pheromone in the bark beetle, *Ips grandicollis*. J. Insect Physiol. 17: 1699-1704.

Vité, J. P., and J. A. A. Renwick. 1971b. Inhibition of *Dendroctonus frontalis* response to frontalin by isomers of brevicomin. Naturwissenschaften 58: 418.

Williamson, D. L. 1971. Olfactory discernment of prey by *Medetera bistriata* (Diptera: Dolichopodidae). Ann. Entomol. Soc. Amer. 64 (3): 586-589.

Williamson, D. L., and J. P. Vité. 1971. Impact of insecticidal control on the southern pine beetle population in East Texas. J. Econ. Entomol. 64 (6): 1440-1444.

1972

Coster, J. E., and J. P. Vité. 1972. Effects of feeding and mating on pheromone release in the southern pine beetle. Ann. Entomol. Soc. Amer. 65: 263-266.

Renwick, J. A. A., and J. P. Vité. 1972. Pheromones and host volatiles that govern aggregation of the six-spined engraver beetle, *Ips calligraphus*. J. Insect Physiol. 18: 1215-1219.

Vité, J. P., A. Bakke, and J. A. A. Renwick. 1972. Pheromones in *Ips* (Coleoptera: Scolytidae): Occurrence and production. Can. Entomol. 104: 1967-1975.

1973

Boyce Thompson Institute for Plant Research. 1973. Forest biology: Pheromones of bark beetles. 49th Annual Report, Yonkers, N. Y., pp. 4-9.

Hughes, P. R. 1973. *Dendroctonus*: Production of pheromones and related compounds in response to host monoterpenes. Z. angew. Entomol. 73 (30: 294-312.

Renwick, J. A. A., P. R. Hughes, and T. DeJ. Ty. 1973. Oxidation products of pinene in the bark beetle *Dendroctonus frontalis*. J. Insect Physiol. 19: 1735-1740.

Vité, J. P., and J. E. Coster. 1973. The use of sticky traps in survey and control of the southern pine beetle, *Dendroctonus frontalis*. Folia Entomológica Mexicana 25: 53-54.

1974

Hughes, P. R. 1974a. Pheromones of *Dendroctonus*: Origin of *a*-pinene oxidation products present in emergent adults. J. Insect Physiol. 21: 687-691.

Hughes, P. R. 1974b. Myrcene: A precursor. of pheromones in *Ips* beetles. J. Insect Physiol. 20: 1271-1275.

Vité, J. P., F. Islas-S, J. A. A. Renwick, P. R. Hughes and others. 1974. Biochemical and biological variation of southern pine beetle populations in North and Central America. Zeitschrift fur Angewandte Entomologie 75: 422-435.

1975

Hughes, P. R. 1975. Pheromones of *Dendroctonus*: Origin of *alpha*-pinene oxidation products present in emergent adults. J. Insect Physiol. 21: 687-691.

Renwick, J. A. A., and P. R. Hughes. 1975. Oxidation of unsaturated cyclic hydrocarbons by *Dendroctonus frontalis*. Insect Biochemistry 5: 459-463.

Vité, J. P., R. Luhl, P. R. Hughes, and J. A. A. Renwick. 1975. Pine bark beetles of the genus *Dendroctonus*: Pest populations in Central America. FAO Bull. Plant Protection 6 (23): 178-184.

1976

Hughes, P. R. 1976. Response of female southern pine beetle to the aggregation pheromone frontalin. Zeitschrift fur Angewandtr Entomologie 81: 463-466.

Renwick, J. A. A., P. R. Hughes, G. B. Pitman,and J. P. Vité. 1976. Oxidation products of terpenes identified from *Dendroctonus* and *Ips* bark beetles. J. Insect Physiology 22: 725-727.

Vité, J. P., P. R. Hughes, and J. A. A. Renwick. 1976. Southern pine beetle: Effect of aerial pheromone saturation on orientation. Naturwissenschaften 63 (1): 44.
